

**NUTRITION AND WELLNESS**

HEBISD shall follow applicable state and federal nutrition guidelines that advance student health and shall promote the general wellness of all students through nutrition education, physical activity, and other school-based activities.

**GOALS AND GUIDELINES**

HEBISD shall maintain wellness goals and nutritional guidelines in consultation with the local school health advisory committee (SHAC) and with representatives of the district’s Nutrition Services Department, school administration, school board and parents. Goals shall be accomplished through physical education and activity.

**PHYSICAL ACTIVITY**

The District shall implement, in accordance with law, a coordinated school health program that complies with the state-mandated time for daily/weekly physical education. Students in high school shall meet the physical education component as required for graduation. HEBISD will provide an environment that fosters safe and enjoyable fitness activities for students, including those who are not participating in competitive sports. Time allotted for moderate to vigorous physical activity will be consistent with state standards and district board policy and regulations, to include at a minimum:

- a. Elementary (K-6); 30 minutes daily or 135 minutes weekly
- b. Middle School (7-9): 30 minutes daily for four semesters;
- High School (9-12): 2- ½ credits (1.0 credits total) of physical education. Exemptions for middle and high school will be in accordance with District Board Policy and State mandates.
- Schools will not remove or pull students from Physical Education classes unless for administrative reasons such as discipline or counseling issues.
- State-certified physical education instructors who will participate in professional staff development opportunities that are aligned with district requirements will teach all Physical Education courses.
- Schools are encouraged at all elementary campuses to schedule recess before lunch. The benefits of having recess before lunch includes: better behavior on the playground, in the cafeteria and in afternoon classes. Additionally, there is less food waste, increased beverage consumption and an improved cafeteria atmosphere.
- Schools are encouraged to hold family events that will promote the benefits of physical activity and healthy lifestyle choices. Information shall be provided to families to help them consider and know how to make healthy choices and incorporate physical activity into their daily routines.

## **SCHOOL-BASED ACTIVITIES**

HEBISD shall establish an environment conducive to healthful eating and physical activity and to express a consistent wellness message through school-based activities:

- Schools will set schedules that allow a minimum of 10 minutes to eat breakfast and 20 minutes to eat lunch. This time will not include the time a student waits in line.
- Wellness for students and their families will be promoted at suitable school activities.
- Employee wellness education and involvement will be promoted at suitable school activities.

## **HEALTH EDUCATION**

Health Education is a component of the Coordinated School Health Model, which consists of a planned, sequential, K-12 curriculum that addresses the physical, mental, emotional and social dimensions of health. The curriculum is designed to motivate and assist students to maintain and improve their health, prevent disease, and reduce health-related risk behaviors. It allows students to develop and demonstrate increasingly sophisticated health-related knowledge, attitudes, skills, and practices. The comprehensive health education curriculum includes a variety of topics such as personal health, family health, community health, consumer health, environmental health, mental and emotional health, injury prevention and safety, nutrition, prevention and control of disease, and substance use and abuse. Qualified, trained teachers provide health education. HEBISD continually reviews the state and national standards for current updates and research.

## **HEALTH SERVICES**

The District shall provide quality health screening and services to students at all levels. Goals of the Screening Program include:

- Teaching prevention and developmental health
- Staff trained in CPR and AED
- Assigning registered nurses to all schools
- Conduct AED Drills on each campus

## **MONITORING AND IMPLEMENTATION**

The School Health Advisory Committee shall help HEBISD oversee this administrative regulation and periodically review the implementation of the wellness regulation with input from: Health Services, Nutrition Services, Counseling Services and the Athletics/Physical Education Department. The campus administration shall be responsible for implementation.

## **NUTRITION**

The district shall increase awareness of the school lunch program.

- Distribute flyers and post on the Child Nutrition Department's website regarding school food programs within the first two weeks of the school year.
- Participation rates in federal child nutrition programs throughout the school year shall be monitor for changes.

When relevant, the district shall use social media to advertise special event or nutrition/food related activities

- Communicate with public relations to utilize current social media accounts for promotions.

The district shall deliver nutrition education that fosters the adoption and maintenance of heathy eating behaviors.

- Provide nutritional information on monthly breakfast and lunch menus.
- Ensure all menus are posted online.
